HeatPro® VS Series
Variable-Speed Heat & Cool Heat Pumps

ULTRA-QUIET, EFFICIENT HEATING & COOLING

HEATS & COOLS

EXPERT LINE® | ✓ **ONLY FROM POOL PROS** ✓ **3+ YEAR PARTS & LABOR WARRANTIES***

EFFICIENT HEATING & COOLING

Powered by the same variable-speed technology as our industry-leading pumps, it's no surprise that the HeatPro® VS Series **heat & cool** heat pump sets the standard for **quiet performance**. Now available as a 120K BTU model, HeatPro VS is built to run more quietly and efficiently than anything else on the market, so pool owners can find a new level of relaxation each time they turn it on.

HeatPro VS uses ambient air to precisely heat and cool the water with the **set-and-forget** convenience of automatic output modulation.
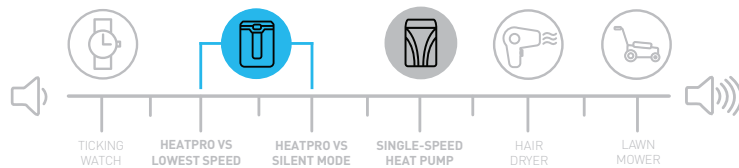

UP TO 50% ENERGY COST SAVINGS

HEATING CAPABILITY
with temp-specific speeds and reduced time to heat

COOLING CAPABILITY
with active defrost for low ambient operation

HeatPro VS is the **only heat & cool heat pump with a dedicated Silent Mode setting**, letting pool owners strike the perfect balance between reliable performance and unrivaled quietness

HEATPRO VS SPECIFICATIONS

MODEL NUMBER	HP51202T
BTU Heating Capacity	
80 / 80 / 80 *	120,000
80 / 80 / 63 *	112,000
50 / 80 / 63 *	65,000
BTU Cooling Capacity	
95 / 90 / 80 *	48,000
Compressor & Fan Speed	Variable
Minimum Operating Temperature	40°F
Power Supply	208-230V / 60 Hz / 1 Ph
Water Flow Rate (Min/Max)	28 / 75 GPM
Water Connection	2" Socket x 2.5" Spigot Union
Unit Dimensions	36.2" D x 33.8" W x 44.2" H
Unit Weight	286 LBS

Ambient Air Temperature / Water temperature / Relative Humidity

ADD OMNI® AUTOMATION FOR A NEW DEGREE OF CONTROL.

The industry-best HeatPro VS gets even better when you pair it with top-rated Omni automation—offering advanced management of temperature, runtime and a whole lot more.

» **Remote heating and cooling control** lets users set temperature from virtually anywhere

» **Intuitive scheduling** with automatic temperature adjustment from custom inputs

» **Status updates** sent directly from HeatPro VS to OmniLogic® mobile app

†Savings may vary by region.
