Hayward OmniHub™ - Smart Total Control

*App only. Smartphone not included

Hayward OmniHub™ is the easiest way to add smart control to a pool system.

The OmniHub™ creates the ability to access, manage, and schedule from anywhere via easy to use iOS and Android smartphones and voice-

controlled devices, including Amazon® Alexa.

With the right bundle, the OmniHub can control a host of equipment including variable-speed pumps, heaters, pool/spa lighting, spa equipment, AquaRite® salt systems, booster pumps, backyard lighting, chemical feed pumps and water features as well as provide pH/ORP monitoring.

The OmniHub™ uses the control pad touchscreen as the main interface.

The OmniHub™ is an Expert Line superb value upgrade for both new and existing system installations. The connection possibilities are shown in the picture.

EXPERT LINE

Products only available through a pool professional or in-store distributor.

AQUARITE® 900 Series – The World's #1 Salt Chlorinator

Part of the Hayward Expert Line of products, the AquaRite® 900 Series offers unmatched comfort, convenience, and peace of mind.

AQR900 with TCELL 925

The Extended Life TurboCells produce an equivalent of up to 725 lbs Tri-Chlore over their lifetime.

The AquaRite® 900 series salt chlorine generators are NSF certified and ETL safety certified.

The 900 series come with easy-to-understand digital display, automatic cell cleaning using reverse polarity technology and super-chlorinate function.

Pair with Hayward OmniHub™ Smart Pool Control and HLCHEM probes for convenient and simple chemistry control.

Hayward ColorLogic® – Color Lighting Designed to be controlled

UCL Pool & Spa Lights

Hayward Universal ColorLogic® color LED lighting will transform your customers' outdoor environments.

They're the only, UL-listed lights to retrofit virtually any existing pool and spa with vibrant color - even those with just one light.

100% brighter than any similar lights on the market, these energy-efficient lights deliver spectacular color even in pools with colored finishes; with installation versatility for new pools, spas and fountains.

UCL Thin Niche provides installation savings for new construction.

UCL Color Palette

Pool and spa lights are UL listed for wall or floor installs without a rock guard and can be positioned just 4in from top of lens to water level - perfect for steps, beach entries and fountains.

With the addition of the new OmniDirect Mode, ColorLogic LED lighting is optimized for use with Hayward OmniLogic® and OmniHub™ automation systems. Features of the new OmniDirect mode include: faster navigation to the desired color or light shows without cycling, dimming capabilities and access to 10 additional color options.

ProHayward Enclosed Step-Down Transformer

ProHayward low voltage swimming pool transformers are the preferred transformer around the world and are the best complement to Hayward pool lighting options.

The CE listed transformers are designed to provide a safe 12 volt electric supply to underwater lights. Advance circuit protection resets automatically. The weatherproof housing features separate wiring compartments for the fully encapsulated high and low voltage circuits.

Available in 300W & 600W; and with multi-tap configurations.

Warm wishes for the season to you and your family from your friends at Hayward IMG!

Hayward IMG offices will be closed December 24th & December 25th 2019
